Dear Jim:

Just finished typing your diary of the trip to Egypt so far. It is fascinating as I'm sure you know. Of course, it has raised a lot more questions so here goes:

- p. 2: How old do you feel the pyramids are after having been to Egypt?
- p. 3: What did the Atlantean sculptures look like (described later)? Try to describe and maybe draw one.
- p. 5: You feel that Egypt is a key to one's higher knowledge. Where are others in the world? Mayan pyramids, Mt. Shasta, Israel, Greece, Ephesus?
- p. 15: Were any Halls of Records left by the Egyptians? 3rd or 4th level maybe?
- p. 20: You question about why there are deserts where great civilizations used to be...what was the answer to that one?
- p. 20: What was the significance of the Arab in your dream? The pool? The ice rink? The elevator of silver and glass?
- p. 21: What were the five names? Were these the names in John Roger's aura? What is the proper concrete physical focus? The conscious path through the dark lake to the other side consciously? Weren't you doing that at the time through bilocation? Was this the first time in this lifetime that you have practiced bilocation? Have you done it since? The five names in his aura - were these the five names of God? Many flowers in aura - significance of others?
- p. 22: ~~xpxx22~~ The past life connections became confusing to me - John the Apostle and Lao Tse. If John Roger was these people then aren't you and he the same? Please try to explain this.
- p. 23: Is your spiritual master John Roger? Did you meet him in the physical? Where is he from? What does he look like?

p. 2

These don't relate to the tape:

Have you ever met the Mount Shasta Messiah? When, where, etc.? Have you met the other two? How? Physical or not?

What do you remember about your relationship with Jesus?

At one point you told me we should talk at length about astral projection. Let's do.

I guess that's about all for now. I have tried to call a couple of times recently - you and Arthur are probably working. Hope you have a nice week. I'll try calling again soon. Can't wait to get the next tape about this trip.

Much love,  
Ray
